1 Bongos

1 Flamenco Cajon

P.A. System

Preferred Brands: d&b audiotechnik, L-Acoustics, Meyer Sound, Adamson

System Specifications:

Professional 3-way or 4-way system, full-range (20Hz–20kHz) with subwoofers.

Coverage must reach the entire audience area.

Must produce a minimum of 115dB SPL (C-weighted average, undistorted) at FOH mix position.

Configuration:

System should be flown whenever possible.

Ground-stacked elements must be on risers/stands, isolated from the stage.

Additional front-fills, out-fills, or delay lines must be provided where required (balconies, extended audience areas).

Control:

Entire system controlled via console matrices or dedicated system processor.

Setup Requirements:

Sound system fully operational before band load-in.

Mic lines, DI boxes, and stands in place.

All XLRs labeled with channel numbers.
Line-check completed prior to artist arrival.

Front of House (FOH)

Mixing Console

Accepted Models:

DiGiCo SD9 / SD10 / SD12 & Quantum series

Yamaha CL3 / CL5 or DM series

Not Accepted:

Midas M32, Behringer X32, Allen & Heath

Placement & Conditions

Console must be positioned at audience level, 20–30m from stage.

Not permitted: placement on a riser, under balconies/roofs, or inside booths/rooms.

FOH must have proper lighting for mixing in low-light conditions.

For outdoor shows:

FOH and backline areas must be sheltered from sun and rain.

standing fans must be provided for summer days above 25°C.

Lights-

Minimum Rig Requirements

Front Light (Warm White, soft focus):

4–6 × LED Fresnels or LED Profile Spots for clear, warm face light on each performer.

Back Light (Colored Wash):

6–8 × LED PARs or LED Wash fixtures (RGBW)

4 × Moving Heads (spot or beam) s.

Stage Floor Ambience:

4 × LED uplighters (placed at stage edges/backdrop)

Primary tones: warm amber, deep red, and gold (flamenco feel).

Accent colors: magenta and blue for

Transitions: slow fades and gentle crossfades, no strobe or harsh effects.

Fog / Haze

1 × Professional Hazer or Fog Machine with fan

Control

Standard DMX lighting console

Operator provided by the venue/festival.

Additional Requirements

House lights must be fully dimmable.

Black backdrop preferred

Lighting rig should be ready and tested before soundcheck.
